

Assignment -02

Task 01: Please conduct multiple Protein-Ligand Docking and provide the top 10 results in the following table.

Task 02: Please perform ADME analysis on the 10 compounds obtained from the Protein-Ligand Docking and provide the results in the table below.

Ligands	Binding Affinity	Rmsd/ub	Rmsd/lb

[illegible]

Task 03: Perform Toxicity Prediction on the 10 compounds obtained from the Protein-Ligand Docking and provide the results in the table below.

[illegible]

Task 04: Identify the highest-ranking Protein – ligand complex and input the corresponding figures into the table below.

[illegible]
